

Master Seal Solutions – COVID-19 Policy

In order to comply with current legislation, we at Master Seal Solutions have published our COVID-19 policy document. Here we outline the steps we are taking to keep our customers and contractors safe during the pandemic.

Our contractors and other staff members will adhere to social distancing guidelines. Only essential personnel will be present on your property at any given time.

All of our staff will wear protective face coverings while working on your property. Any personnel who are exempt will inform you of this prior to work beginning.

To minimize contact, we are now handling all enquiries over the phone and via Email where possible.

All staff members will regularly sanitize and/or wash their hands while working on your property.

For more information on our working practices, please contact us at sales@mastersealsolutions.com or via our website at www.mastersealsolutions.com.
